SUMMARY

Aspiring AI developer **graduating in April 2028**, with experience in computer vision, natural language processing, and applied machine learning projects. Proficient in building and optimizing backend systems in Python. Additional experience as a Junior IT Security Analyst, supporting risk management and automation in enterprise environments.

EXPERIENCE

FirstOntario Credit Union

May 2025 – Aug 2026

Junior IT Security Analyst (Co-op)

Hamilton, ON

- Resolved 2000+ security related tickets, reducing turnaround time for business-as-usual tasks by 60%
- Streamlined the employee access attestation process, reducing workload by 80% and saving 30+ hours per quarter
- Designed and maintained security dashboards and supported projects to uphold the company's ISO certification
- Integrated REST APIs for dashboards tracking security metrics, improving visibility and risk management

McMaster AI Society

Oct. 2023 – Present

President

Hamilton, ON

- Overseeing 40+ members across 8 teams, including 5 AI projects, a flagship hackathon, and an AI workshop day
- Driving professor-partnered research, guiding teams to present at the Canadian Undergraduate Conference on AI
- Previously: Project Lead & Software Developer* – led the development of an AI art recommendation tool using CNNs trained on 4,000+ images, achieving 92% accuracy [GitHub](#)
- Created a Python-based document Q&A tool using LLMs, vector databases, and RAG; presented at the Canadian Undergraduate Conference on AI, leading to a collaboration with the Tutor.AI startup

Google Developer Groups

Sept. 2024 – Mar. 2025

Software Developer

Hamilton, ON

- Developed an AI based Ocular Disease Identifier that analyzes eye scans to detect potential medical conditions
- Built a Flask-based backend integrating MongoDB for data storage and enabling frontend-backend communication
- Worked in a 10 person team through fast paced sprints, consistently completing tasks ahead of schedule

Tutor.AI

Mar. 2024 – Aug. 2024

Software Consultant

Remote

- Optimized backend code for a startup's AI tutor student matching system, speeding up development by 2 weeks
- Analyzed flow and algorithms, restructuring the database to reduce runtime and improve matching accuracy
- Collaborated with project leads in weekly meetings and daily check-ins, consistently meeting sprint deadlines

PROJECTS

Just The Instructions (Chrome Extension AI Model) | [Extension Page](#)

May 2024 – July 2024

- Developed an AI-powered Chrome extension that automatically extracts clean, step-by-step instructions from recipe and tutorial pages by removing ads and clutter, earning 60+ five-star ratings on the Chrome Web Store
- Trained a custom NLP model on 1M+ labeled sentences scraped from 5,000+ websites, achieving 99.6% test accuracy on 100k sentences

ACHIEVEMENTS

Hack the North Participant 2026 – Collaborated in a team at Canada's biggest hackathon at Waterloo University

Google Hackathon Winner 2026 – 1st place out of 200 participants in the McMaster Google Developer Group's Hackathon (Quality Education category), developing a VS Code extension that tracks live progress and code integrity

Google Hackathon Winner 2023 – 1st place out of 110 participants in the McMaster Google Developer Group's Hackathon (Accessibility category), developing a website that transforms text ideas into full slideshow presentations

Hatch Game Jam Winner 2021 – 2nd/60 people and **Hatch Digital Art Competition 2020** – 1st/50 people

TECHNICAL SKILLS AND INTERESTS

Languages: Python, Java, SQL, JavaScript, HTML/CSS

Frameworks/Tools: PyTorch, TensorFlow, Flask, React.js, Google Appscript

Libraries: Pillow (PIL), Pandas, NumPy, Matplotlib

Interests: Traveling (visited 25+ countries), badminton, pickleball, table tennis, piano, investing

EDUCATION

McMaster University

Sept. 2023 – Apr. 2028

Bachelor of Applied Science – Computer Science Co-op, GPA: 11.5/12

Hamilton, ON

- Relevant Courses: Applications of Machine Learning, AI - Innovative Tech, Data Structures and Algorithms
